ENERGY CONSERVATION POLICY

Introduction

The goal of the Energy Conservation Policy is to create awareness and need of the maintenance of environment and energy saving to the stake holders.

Policy Making

The Energy Conservation Policy of Santal Bidroha Sardha Satabarshiki Mahavidyalaya is to manage energy in such a systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solution to the energy crisis.

Policy

- To assess our energy usage and measure its impact on the environment
- To count CO₂ emission generated by our means of transportation.
- To reduce local air pollution emission using environment friendly vehicles, including bicycles, public transportation and use of pedestrian friendly pathways are encouraged.
- To install solar panels for the generation of alternate energy.
- To install LED bulbs in the entire campus to save energy.
- To develop systematic waste management system.
- To develop rainwater harvesting system.
- To undertake plantation programme.
- To provide information and training opportunities on energy saving measure.
- To give instruction to students to switch off the light, fan when not in use.

The policy will be communicated to the students and employees via internal communication channels and will be made available to all stakeholders on basis of notice and website.
