8	Participants	Students and Faculty
9	Participants Count	87
10	About & Outcome	World Sanskrit Day is celebrated on Srabana Purnima every year. The Day is celebrated at the national and global levels. The outcome of the Webinar is that people should understand the importance of this language and the new generation should be introduced with this language of India. The Sanskrit is not just a language, but a culture that needs to be cherished. Therefore, it is very important to remind every Indian once a year that the language of his own country is being left behind somewhere. Language is a major resource in the cognitive world. It verifies the phenomenon of a reality existing around us and also helps to transfer intellectual resources from generation to generation as well as from tradition to tradition. Whatsoever the modern world has achieved, it is almost due to the verbal transformation of the cognition of our predecessors. In this context, Indians are very proud of for being the citizen of a rich country for creating several languages. Specially, our Indian culture has achieved recognition for contributing Sanskrit language.
